# WHY CRONOS?

## **EVM COMPATIBLE**

Built on Ethermint, which supports rapid porting of apps & smart contracts from Ethereum and other EVM-compatible chains.

## **SCALABLE**

Cronos can process more transactions per minute than Ethereum, making it faster, cheaper, and greener to execute smart contracts.

## **INTEROPERABLE**

The Inter Blockchain Communications (IBC) protocol enables interoperability and bridging to the Crypto.org Chain, and other IBC-enabled chains, such as Cosmos Hub.

## **PROOF OF AUTHORITY (POA)**

A more streamlined and scalable consensus mechanism consensus protocol while still maintaining security with a range of validators that many different parties run.

## **OPEN SOURCE**

We welcome our community to review and provide suggestions to strengthen Cronos.
